Education

Practical Software Engineer - 2024 Ort Braude, Karmiel.

Related Coursework - Object-Oriented Programming, PHP, FullStack, Python, Java, Java-Script, Angular, Linux, C.

Projects

Discord Bot [↗](#)

- **Developed a custom Discord bot** using JavaScript and Node.js, enhancing server automation and user interaction.
- **Implemented process clustering** to improve performance and handle multiple bot commands efficiently.
- **Integrated multiple APIs** (Imgur, OpenWeather, MyAnimeList, Reddit) for image uploads, weather updates, anime info, and reddit posts retrieval.
- **Optimized message management** with a purge command for efficient moderation.
- **Utilized Discord.js and Node.js clustering**, enhancing scalability and responsiveness.

Chrome Extension [↗](#)

- **Developed a Chrome extension** using JavaScript, HTML, and CSS to automatically extract and manage all links from any webpage
- **Implemented caching mechanisms** to store extracted links locally, allowing for quick access and efficient management.
- **Provided intuitive controls** for users to refresh or clear stored data, enhancing user experience.
- **Integrated a search functionality** enabling users to quickly find specific links within the extracted data.
- **Designed a user-friendly interface** with clear buttons and search capabilities, ensuring ease of use.

SteamLens [↗](#)

- **Developed a web application** using JavaScript, HTML, and CSS to fetch and display detailed information about Steam games.
- **Integrated the RAWG Video Games Database API** to retrieve comprehensive game data, including descriptions, genres, and release dates.
- **Implemented dynamic content rendering** to present game details in an organized and user-friendly interface.
- **Optimized API handling and data parsing** to ensure efficient data retrieval and smooth user experience.

Skills

- **Design Tools:** Figma, Adobe Photoshop, After Effects, Premiere Pro, Adobe XD, Krita.
- **Web/App Development:** HTML, CSS, JavaScript, PHP, Java.
- **Other Software:** Microsoft 365, Sony Vegas.

Languages

- **Arabic** – Native Language.
- **English** – Excellent (verbal and written).
- **Hebrew** – Intermediate proficiency.
